|             |  | 5.4                   |                    |     |
|             |  | 5.9                   |                    |     |
|             |  | 5.6                   |                    |     |
|             |  | 4.7                   |                    |     |
|             | Lowest average value(I):                               | 5.3                   | --                 | --  |
|             | Performance level:                                     | 3                     | --                 | --  |

Table of performance level for glove

| Test item                                  | Performance level |     |     |     |      |
|--|-------------------|-----|-----|-----|------|
|  | 0*                | 1   | 2   | 3   | 4    |
| Blade cut resistance (NF EN 388:2004\$6.2) | <1.2              | 1.2 | 2.5 | 5.0 | 10.0 |
| Index (I) (minimum)                        |                   |     |     |     | 20.0 |

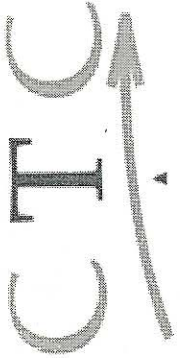

\*Performance level 0 means the glove falls below the minimum performance level for the given individual hazard.
