# Safety Data Sheet

acc. to OSHA HCS

Printing date 04/30/2015

## 1 Identification

## - Product identifier

- Trade name: Vibra-TITE® Threadlocker

- Synonyms: 243 Oil Tolerant Threadlocker
- Part number: VT243
- Relevant identified uses of the substance or mixture Thread locker

## - Details of the supplier of the safety data sheet

Manufacturer/Supplier: ND Industries, Inc 1000 North Crooks Road Clawson, MI 48017 USA Telephone: +1-248-288-0000 Email: info@ndindustries.com Website: www.ndindustries.com

- Information department: Product safety department
- Emergency telephone number: United States: 1-800-424-9300 International: +1-703-527-3887

2 Hazard(s) identification

## - Classification of the substance or mixture

Skin Irrit. 2 H315 Causes skin irritation. Eye Irrit. 2A H319 Causes serious eye irritation. Skin Sens. 1B H317 May cause an allergic skin reaction.

#### Label elements

- GHS label elements The product is classified and labeled according to the Globally Harmonized System (GHS). Hazard pictograms

## - Signal word Warning

- Hazard statements
- H315 Causes skin irritation.
- H319 Causes serious eye irritation.
- H317 May cause an allergic skin reaction.

## Precautionary statements

P261 Avoid breathing dust/fume/gas/mist/vapors/spray P280 Wear protective gloves. P280 Wear eye protection / face protection. Wash thoroughly after handling. P264 P305+P351+P338 If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P363 Wash contaminated clothing before reuse. P333+P313 If skin irritation or rash occurs: Get medical advice/attention. P337+P313 If eye irritation persists: Get medical advice/attention. P302+P352 If on skin: Wash with plenty of water. P362+P364 Take off contaminated clothing and wash it before reuse. P501 Dispose of contents/container in accordance with local/regional/national/international regulations.

#### Classification system: - NFPA ratings (scale 0 - 4)

(Contd. on page 2)

Trade name: Vibra-TITE® Threadlocker

- HMIS-ratings (scale 0 - 4)

HEALTH12FIRE1Fire = 1

REACTIVITY O Reactivity = 0

- Other hazards

Results of PBT and vPvB assessment

- PBT: Not applicable.

- vPvB: Not applicable.

#### **3** Composition/information on ingredients

#### - Chemical characterization: Mixtures

- Description: Mixture of the substances listed below with nonhazardous additions.

- Dangerous components:					
	Copolymer	10-20%			
8002-74-2	Hydrocarbon wax	1-5%			
27813-02-1	Hydroxypropyl methacrylate	1-5%			
67762-90-7	Synthetic amorphous silica (fumed)	1-5%			
128-44-9	Saccharin	<u>≤ 1.00%</u>			
80-15-9	Cumene hydroperoxide	<u>≤ 1.00%</u>			
4 First-aid measures					

## Description of first aid measures

General information:

Symptoms of poisoning may even occur after several hours; therefore medical observation for at least 48 hours after the accident. - After inhalation:

In case of unconsciousness place patient stably in side position for transportation.

- Supply fresh air; consult doctor in case of complaints.
- After skin contact: Immediately wash with water and soap and rinse thoroughly.

- After eye contact: Rinse opened eye for several minutes under running water. If symptoms persist, consult a doctor.

- After swallowing: If symptoms persist consult doctor.

- Information for doctor:

Most important symptoms and effects, both acute and delayed No further relevant information available.
 Indication of any immediate medical attention and special treatment needed

No further relevant information available.

## **5 Fire-fighting measures**

#### Extinguishing media

#### - Suitable extinguishing agents:

CO2, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam.

Use fire fighting measures that suit the environment.

- Special hazards arising from the substance or mixture No further relevant information available.

#### - Advice for firefighters

#### - Protective equipment:

Wear self-contained respiratory protective device. Wear fully protective suit.

#### 6 Accidental release measures

Personal precautions, protective equipment and emergency procedures

Ensure adequate ventilation

Wear protective clothing.

Environmental precautions: Do not allow to enter sewers/ surface or ground water.

- Methods and material for containment and cleaning up:

Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust). Dispose contaminated material as waste according to item 13.

Ensure adequate ventilation.

Dispose of the collected material according to regulations.

Reference to other sections

See Section 7 for information on safe handling.

See Section 8 for information on personal protection equipment.

See Section 13 for disposal information.

(Contd. on page 3)

## 7 Handling and storage

- Handling:

- Precautions for safe handling
- Ensure good ventilation/exhaustion at the workplace.
- Prevent formation of aerosols.
- No special precautions are necessary if used correctly.

- Information about protection against explosions and fires: No special measures required.

#### - Conditions for safe storage, including any incompatibilities

Storage:

- Requirements to be met by storerooms and receptacles: No special requirements.
- Information about storage in one common storage facility: Not required.
- Further information about storage conditions:
- Keep receptacle tightly sealed.
- Store in cool, dry conditions in well sealed receptacles.
- Specific end use(s) No further relevant information available.

## 8 Exposure controls/personal protection

#### - Additional information about design of technical systems: No further data; see item 7.

#### - Control parameters

#### Components with limit values that require monitoring at the workplace:

	8002-74-2 Hydrocarbon wax			
	REL	Long-term value: 2 mg/m <sup>3</sup>		
	TLV	Long-term value: 2 mg/m <sup>3</sup>		
80-15-9 Cumene hydroperoxide				

WEEL Long-term value: 6 mg/m<sup>3</sup>, 1 ppm

Skin

- Additional information: The lists that were valid during the creation were used as basis.

#### Exposure controls

#### Personal protective equipment:

General protective and hygienic measures:

Keep away from foodstuffs, beverages and feed.

Immediately remove all soiled and contaminated clothing.

- Wash hands before breaks and at the end of work.
- Avoid contact with the eyes and skin.
- Breathing equipment:

Not required.

In case of brief exposure or low pollution use respiratory filter device. In case of intensive or longer exposure use respiratory protective device that is independent of circulating air.

- Protection of hands:

Protective gloves

The glove material has to be impermeable and resistant to the product/ the substance/ the preparation.

Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation Material of gloves

## The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.

#### - Penetration time of glove material

The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed. - Eye protection:

Tightly sealed goggles

- Body protection: Protective work clothing

- Information on basic physical and chemical properties - General Information - Appearance: - Form: Fluid
